Missed Visit Policy

At Rx Rehab Physical Therapy, our goal is to help all patients reach a fully recovered state. Your physical therapist will provide you with your plan for care during the evaluation appointment and will inform you of the required number of visits to help you achieve your goals. Patients who attend all of their physical therapy visits are 93% more likely to fully recover from an injury whereas those that miss even one visit have a lower potential for recovery. We are happy to share a copy of this study with you but want to make sure that you understand that it is extremely important that you attend all of appointments. This policy ensures that all patients have the opportunity to receive the care they need.

Please read our policy and sign at the bottom indicating you understand our expectations and our policy.

1. As experts, we know that **you will not reach full recovery if you do not attend your appointments**. To help ensure you have the best chance at recovery, we will work with you to schedule out all of your appointments after your evaluation today and in order to have the best chance at recovery, you will need to attend each visit.
2. Please note: Our goal is to begin your treatment sessions on schedule. For all appointments after your evaluation, we expect that you will arrive at least 5 minutes prior to your appointment time, dressed for your session, and ready to begin at on time. This will allow our front office to handle their responsibilities and our specialists to provide the care you need and deserve.
3. If you're late for your appointment, you're missing the time that we have specifically scheduled for your care and we cannot guarantee that we will be able to provide you with your full treatment as we have likely reserved the appointment time following yours for someone else.
4. If you're running late, we need you to call us immediately so we can prepare for your late arrival and consult with your clinician. If you are more than 15 minutes late, your session may need to be rescheduled and if that occurs, you will incur a missed visit charge. Chronically late patients will be asked to change their appointment times.
5. Our schedule is very full and certain time slots are not always available for patients who need them. If you need to cancel or change a scheduled appointment, for any reason, we require a day's notice **during business hours, so we have enough time to help someone else who needs an appointment time.**
6. When you call to cancel an appointment, have your schedule ready as we will reschedule you right away.
7. Same-day cancellations and appointment no-shows are not permitted as they keep other patients from getting the care they need.
8. There is a \$50 charge **if you do not provide at least a days' notice of your appointment change or cancellation. This is non-negotiable and it's your responsibility as insurance will not cover it.**
9. While we understand that illness can strike at any time, we still expect that you will work to provide at least a day's notice if you cannot attend a scheduled appointment.
10. **To avoid our missed visit fee, call our office during business hours - at least ONE DAY in advance for any illness, appointment changes or cancellations.**
11. Patients who have multiple same-day cancellations or no-shows, will be removed from the schedule. If applicable, we will also notify your physician of your non-compliance.
12. If you're worker's comp, we are required to notify your claims adjuster if you cancel or no-show.

We look forward to working with you to meet your physical therapy goals.

Scott Christensen, Owner

I have read this policy and by signing below I am indicating that I understand and this policy.

Informed Consent for Therapy Services

“Informed Consent” is a process for getting permission before we provide therapeutic services to you, the patient. A sound informed consent includes an explanation of the potential risks, benefits, and alternatives to any treatment that has been proposed to you or, in the case of a minor, your representative. We will discuss the Plan of Care established for you and give you ample time to ask questions about it; your consensus is a critical part of achieving a successful outcome.

Potential Benefits: You may experience improvement in your symptoms and functional activities as well as resolution of other key complaints or problems. In addition to treatment, we provide education to you about your condition throughout your episode of care. This education is often accompanied by handout material that you can refer to regarding proper techniques and home program execution. These resources will help you maintain a sound level of function and will also help you minimize symptoms, should they reoccur.

Potential Risks: You may experience an increase in your current level of pain, if pain is part of your complaints. Many times increased activity or therapy interventions will bring on some discomfort, this is usually temporary. If your pain or discomfort does not subside within twenty-four (24) hours, you should discontinue any home program involving that particular activity, if applicable, and contact your therapist.

Alternatives: We establish a Plan of Care based on the best interventions for your condition, but on occasion our choice of treatment is not well tolerated. You are asked to voice any unfavorable reaction you experience to any aspect of your treatment so that we can modify or terminate it promptly and progress your rehabilitation. If you decide not to continue your participation in your therapy program you will be asked to consult with your physician about other treatment alternatives.

No Warranty: Please note that we cannot make any promises or guarantees regarding a full resolution of and/or correction of your condition. We will, however, work in conjunction with you to achieve optimal improvement.

I have read the above information and I consent to the evaluation(s) and treatment provide by Rx Rehab Physical Therapy.
